

Red Oak

Quercus rubra

Full sun

Adaptable to many soil types, but may suffer in extreme drought

60-75' tall

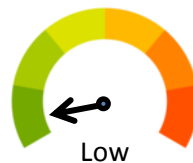

60-75' wide

Large

Maintenance Level

Key Features:

Grey, ridged bark; shallow root system compared to most other oaks

Leaves turn russet red in fall

Acorns ripen in early fall & provide forage for animals

REMEMBER:

- Plant within 1 week of pick up
- Water once a week, 10-20 gallons, from March through December
