Department:	Philadelphia Parks & Recreation	Hiring Manager:	Dhan Parker
Hourly Rate:	\$15.00/hour	Application deadline:	March 29, 2019
Position Type	Temporary/Seasonal Employment; Three (3) Months in Duration		

Overview of City of Philadelphia

With a workforce of over 30,000 people, and opportunities in more than 1,000 different job categories, the City of Philadelphia is the fifth largest city in the United States and one of the largest employers in Southeastern Pennsylvania. As an employer, the City of Philadelphia operates through the guiding principles of service, integrity, respect, accountability, collaboration, diversity and inclusion. Through these principles, we strive to effectively deliver services, to resolve the challenges facing our city, and to make Philadelphia a place where all of our residents have the opportunity to reach their potential.

Agency Description

Philadelphia Parks & Recreation (PPR) advances the prosperity of the city and the progress of her people through intentional and sustained stewardship of over 10,200 acres of public land and waterways as well as through hundreds of safe, stimulating recreation, environmental, and cultural centers. PPR promotes the well-being and growth of the City's residents by connecting them to the natural world around them, to each other, and to fun, physical, and social opportunities. PPR is responsible for the upkeep of historically significant Philadelphia events and specialty venues, and works collaboratively with communities and organizations in leading capital projects and the introduction of inventive programming. Position Summary

Ash trees are under attack by the emerald ash borer (EAB), an exotic wood boring beetle native to Asia. In 2002, EAB was discovered in Michigan and has since spread across 23 states throughout the midwest and eastern US leaving behind millions of dead ash trees in its wake. EAB is infesting and killing ash in Philadelphia and threatens to eliminate this integral component of our urban forest unless these trees are protected by injecting them with an insecticide (emamectin benzoate) to kill EAB larva which feed on their vascular system. PPR interns evaluated and injected approximately 1,300 ash trees during the summer of 2016 and again in 2018. These same trees must now be re-treated to continue to protect them from EAB.

The Recreation Specialty Instructor (RSI) will serve as an Ecosystem Management Intern to treat these individual trees with systemic insecticide using micro-injection equipment and collect treatment data on electronic tablets. Interns will receive training on plant identification and also be trained as PA Dept of Agriculture "Registered Pesticide Application Technicians" prior to beginning EAB suppression or invasive plant control field work.

Responsibilities

- Work with PPR staff to obtain the Registered Pesticide Technician license.
- Learn to identify a variety of Philadelphia forest plants, both native and non-native/invasive.
- Drive to various sites throughout the park system to treat ash trees.
- Work effectively and efficiently as a member of a team.
- Use sharp cutting tools, including chain saws, to cut invasive trees, shrubs and vines and to clear the base of ash trees.
- Learn the skills required to properly measure trees, calculate quantities and use micro injection equipment.
- Use pesticides safely and carefully to minimize personal and environmental exposure.
- Maintain and care for field equipment, including micro injection equipment and hand tools.
- Use I-Pad tablet to collect field data.
- Work in a logical and consistent manner to maximize productivity.
- Communicate regularly with PPR Project Manager.
- Communicate clearly and politely with citizens.
- Other related duties as assigned

Competencies, Knowledge, Skills and Abilities

- Ability to obtain the PA Registered Pesticide Application Technician training and apply insecticide (and herbicide, if working after EAB treatments are completed)
- Ability to work in field conditions, carry equipment, and walk long distances over variable terrain
- Ability to learn basic plant identification skills for common Philadelphia forest plants
- Knowledge of electronic data collection and equipment use
- Excellent written and oral communication skills

Qualifications (Education and Experience)

- High school diploma or equivalent (e.g. GED)
- Experience working in parks and/or forests preferred
- Committed to working for the duration of the project is required with some flexibility (approx. May 4 – August 21, 2020)
- Valid PA Driver's License
- Must have access to a reliable personal vehicle. Department will not provide transportation.

Additional Information

- Successful candidates must be a city of Philadelphia resident as a condition of employment.
- Interested candidates must submit a resume and cover letter to **ghan.parker@phila.gov**
